Forecast for Friday 27 Oct 2023

Weather: A cloudy day with spells of rain, this most persistent and heaviest across the Trossachs and eastern Argyll. Drier and occasionally brighter spells of weather across southern Lochaber and western Argyll. Some heavy showers from time to time across Kintyre, Jura and Arran with a chance of thunder.

Chance of cloud-free hill tops above 800m: 40%, best chance across southern Lochaber and western Argyll

Low Cloud and visibility: Poor in widespread low cloud down to 500 to 800 metres, lowest bases across the Trossachs and coastal southwest. Good visibility with cloud more broken in the northwest of the area.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Gale force summit winds will make for slow progress and significant wind chill. Drenching conditions will develop in rain.

Forecast for Saturday 28 Oct 2023
Weather: A mostly cloudy day with showers or longer spells of rain, these most likely across the south and east of the area. The northwest of the area will see the best of any drier and brighter weather.

Maximum wind: Easterly winds gusting to 45 to 55 mph on the tops

Chance of cloud-free hill tops above 800m: 40%, best chance across northern Argyll and southern Lochaber

Low Cloud and visibility: Poor in extensive low cloud down to 450 to 800 metres. Cloud may break towards the west coast and across the north of the region

Temperature: **Glens:** Plus 5 rising to 10 Celsius
At 800m: Plus 4 Celsius
Freezing level: Above summits
